

**STAFF REPORT(S)**

**Resolution #C-234-10**

Moved by Councillor Novak, seconded by Councillor Foster

THAT Report PSD-067-10 be received for information and adoption of the comments noted in italics;

THAT Clarington Council is of the opinion that to exclude the Courtice employment lands on the basis of an accounting exercise does not address key considerations being:

- provision of large parcels to accommodate employment intensive uses,
- the extension of the Courtice Sewer trunk past these lands,
- the strategic location of these lands adjacent to the future 407 east link and 401 corridor, and
- proximity to Darlington Nuclear, New Build and Clarington Energy Business Park (an alternative energy cluster)

From an economic development and strategic viewpoint including these lands at this time within the Courtice urban boundary is good planning; and

THAT a copy of Report PSD-067-10 be sent to the Minister of Municipal Affairs and Housing, the Region of Durham and local area municipalities, and that all the interested parties listed in Report PSD-067-10 be notified of Council's decision.
